PEGGAS

**PEGGAS is well known engine brand.
Engines for high pressure cleaners
and for various uses.**

Peggas is well known engine brand made for high-pressure cleaners & accessories. Pressure washer from Waspper will accompany you for your whole life. Our after-warranty services are the best you can find. Sometimes you might need to replace an engine. Every spare part you might need can be found on our website. Replacement of old parts is rather simple. If there are any problems you can call us. We will be happy to help our customers.

Assembling of the petrol engines is done in the EU. Even the strictest norms aren't a problem for us. The most important thing is high quality and long life of our engines. Made with professional care to the smallest details. Reviews from our customers are full of praise for the longevity of Peggas engines.

Peggas doesn't support consumer society and reckless maintenance of products.

Our quality is higher than the high standard. We take pride in our high-quality petrol engines with easy maintenance and replacement of parts. Also, our wide assortment of spare parts and accessories will help you customize the petrol engine to every situation that you may require.
