

When cleaning is a pleasure

#Cleaning Pleasure

GP4000BHD

275 Bar / 18 L/pm

Professional high pressure washer Gaspper GP4000BDH is designed for various sectors of our economy. It finds its use especially in construction, agriculture or automotive industry. It is also designed for technical services, municipal authorities or rental companies which rent construction machines. A high-quality pressure pump with a flow rate of 18 litres per minute and 275 bar pressure together with a 13-horsepower engine Briggs and Stratton. High pressure and a wide range of accessories make this machine the right tool for everyday work. The package includes a set of high pressure nozzles, a high pressure gun and rubber hose with great durability.
